CUMULATIVE TABLE OF CONTENTS
Vols. I-V, 1974-79

VOLUME I, 1974-75

No. 1, July 1974: FIBRINOGEN

The Molecular Structure of Fibrinogen, *Genesio Murano*, 1
Crosslinking of Fibrin, *J. S. Finlayson*, 33
Fibrinogen Catabolic Pathways — Determinations from analyses of the structural features of circulating fibrinogen and of derivatives produced *in vitro* by the action of plasma or thrombin, *Michael W. Mosesson*, 63
Abstracts of Current Literature, 85

No. 2, October 1974: FIBRINOGEN (cont'd)

Soluble Fibrin Complexes, *Nils U. Bang and Marge L. Chang*, 91
Fibrinogen Synthesis, Distribution and Degradation, *E. B. Reeve and J. J. Franks*, 129
Congenital Abnormalities of the Fibrinogen Molecule, *Eberhard F. Mammen*, 184
Abstracts of Current Literature, 202

No. 3, January 1975: PROTHROMBIN CONVERSION

Prothrombin and Thrombin — Selected aspects of thrombin formation, properties, inhibition, and immunology, *Walter H. Seegers, Houria I. Hassouna, David Hewett-Emmett, Daniel A. Walz and J. Andary*, 211
The Chemistry and Enzymology of Bovine Factor X, *Ruth Ann Henriksen and Craig M. Jackson*, 284
Abstracts of Current Literature, 310

No. 4, April 1975: IMMUNOANTIBODIES IN BLOOD COAGULATION

Autoimmunity — A view from 1975, *Noel R. Rose*, 319
Acquired Inhibitors to the Blood Coagulation Factors, *Sandor S. Shapiro and Mae Hultin*, 336
Management of Patients with Factor VIII or IX Inhibitors, *John A. Penner and Patricia E. Kelly*, 386
Abstracts of Current Literature, 400

VOLUME II, 1975-76

No. 1, July 1975: THROMBOLYTIC THERAPY (out of print)

Thrombolytic Therapy: A Comparison between Urokinase and Streptokinase, *William R. Bell*, 1
Thrombolysis with a Combination of Small Doses of Streptokinase and Full Doses of Heparin, *A. S. Gallus, J. Hirsh, J. F. Cade, A. G. G. Turpie, I. R. Walker and M. Gent*, 14

Autoimmunity — A view from 1975, *Noel R. Rose*, 319
Acquired Inhibitors to the Blood Coagulation Factors, *Sandor S. Shapiro and Mae Hultin*, 336
Management of Patients with Factor VIII or IX Inhibitors, *John A. Penner and Patricia E. Kelly*, 386
Abstracts of Current Literature, 400

VOLUME II, 1975-76

No. 1, July 1975: THROMBOLYTIC THERAPY (out of print)

Thrombolytic Therapy: A Comparison between Urokinase and Streptokinase, *William R. Bell*, 1
Thrombolysis with a Combination of Small Doses of Streptokinase and Full Doses of Heparin, *A. S. Gallus, J. Hirsh, J. F. Cade, A. G. G. Turpie, I. R. Walker and M. Gent*, 14

Quantitative Streptokinase Determination in Plasma of Patients Undergoing Thrombolytic Therapy, *Michael Martin*, 33
Studies on the Prevention of Respiratory Distress Syndrome of Infants Due to Hyaline Membrane Disease with Plasminogen, *Clara M. Ambrus, Thai S. Choi, David H. Weintraub, Bernard Eisenberg, Henry P. Staub, Norman G. Courey, Ronald J. Foote, Dean Goplerud, Robert V. Moesch, Michael Ray, Irwin D. J. Bross, Okhee S. Jung, Irving B. Mink and Julian L. Ambrus*, 42
Abstracts of Current Literature, 52

No. 2, October 1975: VON WILLEBRAND'S DISEASE

Von Willebrand's Disease — History, Diagnosis and Management, *Eberhard F. Mammen*, 61
Factor VIII in von Willebrand's Disease, *J. Foster Irwin*, 85
The Platelet in von Willebrand's Disease: Interactions with Ristocetin and Factor VIII, *Ralph T. Walsh*, 105
Abstracts of Current Literature, 116

No. 3, January 1976: THROMBOSIS, PLATELETS AND ANTICOAGULATION

The Role of Thrombosis in the Etiology of Atherosclerosis (a Positive One) and in Precipitating Fatal Ischemic Heart Disease (a Negative One), *William C. Roberts and Victor J. Ferrans*, 123
Platelets and Thromboembolism, *Louis M. Aledort*, 136
Clinical Pharmacology of Acetylsalicylic Acid, *Larry S. Cohen*, 146
Guidelines for the Management of Anticoagulant Therapy, *Victor Gurewich*, 176
Abstracts of Current Literature, 197

No. 4, April 1976: VENOUS THROMBOEMBOLISM

Diagnosis of Venous Thromboembolism, *Alexander S. Gallus, Jack Hirsh, Russell Hull and William G. van Aken*, 203
Prevention of Venous Thromboembolism, *Alexander S. Gallus and Jack Hirsh*, 232
Treatment of Venous Thromboembolic Disease, *Alexander S. Gallus and Jack Hirsh*, 291
Abstracts of Current Literature, 332

VOLUME III, 1976-77

No. 1, July 1976: CONTACT ACTIVATION IN HEALTH AND DISEASE

The Hageman Factor Dependent Pathways of Coagulation, Fibrinolysis, and Kinin-Generation, *Allen P. Kaplan, Henry L. Meier and Robert Mandle, Jr.*, 1
Kininogens of Human Plasma, *Flavio M. Habal and Henry Z. Movat*, 27
Plasma Inhibitors of the Hageman Factor Dependent Pathways, *Alan D. Schreiber*, 43
Abstracts of Current Literature, 52

No. 2, October 1976: BLEEDING PROBLEMS WITH OPEN HEART SURGERY

Alterations of Hemostasis Associated with Cardiopulmonary Bypass: Pathophysiology, Prevention, Diagnosis and Management, *Rodger L. Bick*, 59
Laboratory Modalities for Assessing Hemostasis during Cardiopulmonary Bypass, *Lajos F. Fekete and Rodger L. Bick*, 83
Cardiopulmonary Bypass Hemmorrhage: A Surgeon's Point of View, *Cary J. Lambert*, 90

The Adhesion of Platelets to Subendothelium, Collagen and Artificial Surfaces, *R. G. Mason, S. F. Mohammad, H. Y. K. Chuang and P. D. Richardson*, 98
Abstracts of Current Literature, 117

No. 3, January 1977: IDIOPATHIC THROMBOCYTOPENIC PURPURA

Idiopathic Thrombocytopenic Purpura (ITP): Clinical and Immunologic Considerations, *Christian Mueller-Eckhardt*, 125
Management of Idiopathic Thrombocytopenic Purpura in the Adult, *James V. Lacey and John A. Penner*, 160
Idiopathic Thrombocytopenic Purpura in Children, *Jeanne M. Lusher and Rathi Iyer*, 175
Abstracts of Current Literature, 200

No. 4, April 1977: DISSEMINATED INTRAVASCULAR COAGULATION

Pathophysiology of Generalized Intravascular Coagulation, *Gert Müller-Berghaus*, 209
Morphologic Diagnosis of Disseminated Intravascular Coagulation: Histologic, Histochemical and Electronmicroscopic Studies, *Uwe Bleyl*, 247
Chronic Intravascular Coagulation and Fibrinolysis (ICF) Syndromes (DIC), *Charles A. Owen, Jr., and E. J. Walter Bowie*, 268
Disseminated Intravascular Coagulation: Evaluation of Therapeutic Approaches, *Dieter L. Heene*, 291
Abstracts of Current Literature, 318

VOLUME IV, 1977-78

No. 1, Summer 1977: THE LIVER AND BLOOD CLOTTING (out of print)

Vitamin K-Dependent Clotting Factors, *H. Prydz*, 1
The Role of the Liver in Biosynthesis of the Non-Vitamin K-Dependent Clotting Factors, *E. F. Workman, Jr. and R. L. Lundblad*, 15
Diffuse Intravascular Coagulation in Liver Disease?, *P. W. Straub*, 29
Coagulation Abnormalities in Liver Disease, *K. Lechner, H. Niessner and E. Thaler*, 40
The Coagulation Disorder of Orthotopic Hepatic Transplantation, *H. J. Bohmig*, 57
Abstracts of Current Literature, 83

No. 2, Fall 1977: CONGENITAL PLATELET ABNORMALITIES

Platelet Function. *Raymond L. Henry*, 93
Congenital Disorders Affecting Platelets, *Jeanne M. Lusher and Marion I. Barnhart*, 123
Abstracts of Current Literature, 187

No. 3, Winter 1977: VARIOUS TOPICS

Acetylsalicylic Acid, Hemostasis and Human Thromboembolism, *François Jobin*, 199
Mechanisms of Hemorrhage in Leukemias, *Jerzy Lisiewicz*, 241
Abstracts of Current Literature, 268

No. 4, Spring 1978: HEPARIN

The Premises Involved in the Clinical Use of Heparin, *Louis B. Jaques*, 275

The Chemical and Anticoagulant Nature of Heparin, *Louis B. Jaques and Norman M. McDuffie*, 277
Pharmacodynamics and Clinical Effectiveness of Heparin, *Louis B. Jaques and Jaysen M. Mahadoo*, 298
Endogenous Heparin, *Louis B. Jaques*, 326
Addendum: The Discovery of Heparin, *Louis B. Jaques*, 350
Abstracts of Current Literature, 354

VOLUME V, 1978-79

No. 1, Summer 1978: HEMOSTASIS AND MALIGNANCY (out of print)

Alterations of Hemostasis Associated with Malignancy: Etiology, Pathophysiology, Diagnosis and Management, *Rodger L. Bick*, 1
Epsilon Aminocaproic Acid (EACA), *James D. Griffin and Leonard Ellman*, 27
Abstracts of Current Literature, 41

No. 2, Fall 1978: THE ENDOTHELIAL CELL IN HEALTH AND DISEASE FROM THE COAGULATIONIST'S POINT OF VIEW

Introduction, *Robert M. Nalbandian and Raymond L. Henry*, Guest Editors, 49
Endothelial Cell Physiology, Perturbations and Responses, *Marion I. Barnhart and Charles A. Baechler*, 50
Platelet-Endothelial Cell Interactions: Metabolic Maps of Structures and Actions of Prostaglandins, Prostacyclin, Thromboxane and Cyclic AMP, *Robert M. Nalbandian and Raymond L. Henry*, 87
Vessel Wall Models for Studying Interaction Capabilities with Blood Platelets, *Marion I. Barnhart and Shan-Te Chen*, 112
Abstracts of Current Literature, 156

No. 3, Winter 1979: THE ENDOTHELIAL CELL (cont'd)

Prologue, *Robert M. Nalbandian and Raymond L. Henry*, Guest Editors, 165
Vascular Disorders Associated with Thrombohemorrhagic Phenomena, *Rodger L. Bick*, 167
The Pathogenesis of Thrombotic Thrombocytopenic Purpura, *Hau C. Kwaan*, 184
Recent Therapeutic Advances in Thrombotic Thrombocytopenic Purpura, *John J. Byrnes and Eric C. Y. Lian*, 199
Thrombotic Thrombocytopenic Purpura: An Extended Editorial, *Robert M. Nalbandian, Raymond L. Henry and Rodger L. Bick*, 216
A Rational, Unified Approach to the Problem of Thrombotic Thrombocytopenic Purpura, *Hau C. Kwaan*, 241
Abstracts of Current Literature, 243

No. 4, Spring 1979: THE ENDOTHELIAL CELL (concluded)

Epilogue, *Robert M. Nalbandian and Raymond L. Henry*, Guest Editors, 253
Recent Advances in the Understanding of Contact Activation Reactions, *John H. Griffin and Charles G. Cochrane*, 254
Pathogenesis of Arterial Vascular Disease, *Laurence A. Harker and Russell Ross*, 274
Pharmacology of Platelet-Suppressive Agents, *J. L. Wautier and J. P. Caen*, 293
Abstracts of Current Literature, 316
